## **The CAMENAE 2009 Charmed Collection: Authentic Luxury**

**London**, Spring 2009 – CAMENAE Italian accessories, launches a CHARMED collection for the elite luxury consumer with sophistication, and an emphasis on authenticity. The 2009 collection builds on the success and strengths of the debut 2008 collection: Limited design handbags and accessories with an authentic lock + key concept to interchange straps, as well as belt panels, for personalised styling.

CAMENAE's understated elegance speaks for itself. American-British designers and co-owners, Jill Walker and Brittany Callard, work only with the finest tanneries and most exclusive manufacturers in Italy, dedicated to the tradition of superior quality, detailing, and craftsmanship.

In 2009 CAMENAE differentiates itself further with an authentic blend of art and luxury in its Dragon pieces: A collectible capsule collection, and CAMENAE's 'objects of desire' in 2009.

*"Objects of desire possess a subtle sophistication with distinct beauty, and original detailing, exceeding our normal realm of existence."* says designer Jill Walker, whose spirited energy is clearly focused on the beauty of authentic luxury on an international level.

Recognised by the media as one of few luxury brands that hasn't lost its lustre, CAMENAE is carried by celebrities and private consumers alike.
